Comments

“ Wanda and Bill, I am so sorry to hear of your mom's passing . I just found out and I am so sad, she was so close to my mom when we were growing up and have fond memories of her and Helen.

She is now in heaven with my mom (Shirley) and my sister (Gloria) and her Sister Helen and brother Alan She was a wonderful woman

“ I was sitting here today in upstate NY and my mind happen to go back thinking of my dear friend Joan and then I began to search for information and was sadden to learn of her passing! My thoughts and prayers for her Children Billy and Wanda and her Grandchildren. We were best friends for many yrs. we first met as students at Pearl St School in Bridgeton, I was 11 and she was twelve. We were always together during our School years, where you seen one you seen the other on. The last time I talked to her was in 2013 then after that I moved and had many changes in my life but always thought of her. May God Bless her Family! Sincerely Joy Estilow Gardner

“ Wanda and Billy and the family,
Karl and I will remember all the times we shared with your Mom and Dad. It was such a time that it goes back for many years. When I joined the choir back in the sixties on for many years. She gave me the confidence to go on and sing like I was special. She always told me I reminded her of a country singer of gospel songs. That made me feel good and when walking in and saying hello she always finished her good mornings and good byes with "I love you" as I did with her. She will always be a wonderful remembrance of a good friend. Karl always thought of lot of you Dad and Mom, he would mention then during church and remembers your Dad when they were in the Fire Co. together. Prayers are with the family. You will always be special to me as your Dad and Mom were and (still are). Love you, for being you and for being one of my kids. God Bless! Karl and Margaret Weiss
